

VSS 2500 SERIES

TECHNICAL DATA

Height
20mm

Wire
1.20mm

Coil density
>837/m²

Sheet sizes
Various available

Rollpack quantity
15 or 20 sheets

Our premium VSS mini spring sheet, the new 2500 Series delivers a greater spring density per m² than any other sheet, allowing manufacturers to differentiate their products for higher retail price points.

The sheets give enhanced comfort and support whilst improving air circulation and avoiding settlement.

Manufactured in the UK and produced with only two raw materials the product is fully recyclable to help customers towards their sustainability goals.
